

## *My Prince*

*We have received news that a military scout under the direction of Carlov Izmon de Temeschwar has failed to report in. The scout was acting as part of a group conduct diplomacy and information gathering on the orc groups in the eastern Barrens.*

*The agent in question is understood to be trapped at Guido's Fort in the region known as Saltmarsh. It is not clear precisely who has trapped them - whether it is the local orcs, or a remnant of the Druj forces. Either way it is clear that our agent is in need of assistance, should the Sentinel Gate be co-operative.*

*Our information indicates that the scout was working alongside a larger group containing diplomatic agents directed by one Othello di Severio von Holberg, and with the assistance of "native guides" belonging to one of the Dawnish houses in Drycastle - either house Martel or House Aurelius, we have been unable to determine which. It may be worth co-ordinating with these houses on any rescue attempt.*

*Bring forth the horde, ferocious and wild; all shall break upon our city walls.*

*Igran Krieg von Temeschwar*
