Dear Kal,

Congratulations on playing your part as one of the very first Imperial citizens to access this most rare Axou substance - the Yellow Lotus.

Distilled from purest blossoms, we have been able to bring our highest quality product to a few exclusive Anvil customers. Should you wish to order more doses to be delivered for the next summit, please do find us doing business outside the Forge on Saturday afternoon from 1pm, or write to us and we shall endeavour to reach you in the spring to discuss trade arrangements.

We also stock a small selection of other wares, which may also be of interest if you are yet to sample our full collection.

All profits from our trade go towards the efforts to unite and rebuild our once great citadel - a worthy cause, and we are most grateful for the support citizens of the Casinean Empire continue to show us.

May Vigilance keep you,

Evander & Alexander
