TROUBLE IN RODEZ!

Citizens of the usually sleepy town of **Rodez**, near Sarvos have found themselves the victims of **vile calumny** in the past six months. First the town was beset by a great monster fashioned all of **green iron**, who waded out of the river and began attacking innocent woodcutters. This **mischief** might have continued apace were it not for the intervention of **Brave Heroes** from **The Company of the Red Fox**, who destroyed the foul beast. Huzzah and Hurrah for the **Saviours of Rodez!**

Since then, however a group of bandits from calling themselves **The Prosperous Beggars** have troubled the woods outside of the town. This gang, previously of **Tassato** has been worrying **weary travelers** on the roads West; and seizing shipments of White Granite from **The Arratan Gamble** and wine from **Entario**. It is said that they have the remains of the monster in their possession.

WHEN WILL TASSATO STOP SENDING THEIR JUNK DOWNRIVER?
