

Forest of Ulnak Spy Network E4-2024

This physical report is an out-of-character briefing sheet, rather than an in-character report. We ask players not to share these briefings around until after the event at the earliest. It is intended to be used to create stories about what the characters involved have done since the Summer Solstice.

The total military strength of the scouts committed to the Forest of Ulnak totals two hundred and forty strength. The forces here is serving under Mouse Sergeant and Desmond Redbear Argonning of Dawn.

Though there is insufficient strength assigned to the spy network to uncover many details the presence of the Black Wind is almost impossible to notice. Respected and welcomed they are camped around the great fortress of Cassad Ûln in the north-east.
