

*Chief Magistrate Karkovitch,*

*Guillmero i Marco i Riqueza was wanted for questioning about hiring the League mountebanks known as the Prosperous Beggars to commit crimes in Felize Grove, Tassato. Freeborn militia tracked Guillmero to a lodgings house in Bramar, Feroz, but he has been killed.*

*We believe Guillero was in Bramar attempting to arrange passage out of the Empire.*

*The couple who own the lodgings, Cristo and Lamia i Deberra i Erigo, have been questioned and their statements documented, but have alibis for the murder. The only remaining suspects are the four other guests at the lodgings.*

*There is a conjunction between Anvil's Portal and Bramar approaching. Consequently, I have ordered the guests detained and Guillmero's room sealed. It is now possible for a team of investigators to examine the room the murder happened in, as well as being able to bring the four suspects to Anvil for further questioning.*

*Initial divinations indicate that the conjunction should be able to handle a dozen people from Anvil and enough to return.*

*In service to the Empire,*

*Fernando i Vassa i Riqueza
