

Common Potions

Philtre of Strength

Description: This translucent liquid has a faint blue tinge. It has a rich, spicy scent, but a tiny droplet on your tongue discovers it to have a surprisingly sweet flavour.

Effect: You regain one spent hero point. If you have no hero points this potion has no effect.

Philtre of Heavenly Lore

Description: This thin liquid has a startlingly violet hue. It smells faintly medicinal, like cough syrup. A tiny droplet of this oily fluid on your tongue reveals it to have a tangy, citrus flavour.

Effect: You regain up to 6 points of personal mana. If you do not have personal mana, this preparation has no effect.

Elixir Vitae

Description: This translucent liquid is tinted a pale blue-green. It has a clean, fresh scent. A tiny drop of the sticky fluid on your tongue or your finger tingles pleasantly for a moment.

Effect: You regain up to three lost hits.

Oakenhide Tonic

Description: This deep golden liquid looks a little like watered-down honey. It has an alcoholic scent, and a tiny droplet of the sticky fluid on your tongue tastes strongly of apples.

Effect: You gain an additional rank of endurance until the next sunrise. This is a tonic; the effect of any other tonic you have drunk immediately ends.

Druj Blade Venoms

Redwillow Paste

Description: This rust-coloured paste smells faintly of stagnant water. It has a sticky texture if you rub it between your finger and thumb that is hard to get rid of. It has an incredibly sweet, sickly taste that is unappealing.

Effect: This oil must be smeared on a melee weapon over 5 seconds. The wielder must call WEAKNESS on the next blow with the weapon within 10 seconds

Gutwreck

Description: This translucent liquid has a redbrown tinge to it and sticks viscously to the inside of the container if you shake it. It smells faintly of over-ripe pears and has a faint, tangy flavour.

Effect: You are subject to both the weakness and venom conditions. These conditions may be removed normally.

Oil of Blackthorn

Description: This thin, oily paste is the colour of grey slate. If you rub it between your finger and thumb, it has a slick texture that leaves a faint residue behind on your fingers. The oily taste is offensively and deeply unpalatable.

Effect: This oil must be smeared on a melee weapon over 5 seconds. The wielder must call VENOM on the next blow with the weapon within 10 seconds.
