

To the Senators for Madruga, Feroz and Kahraman,

I have unfortunate news. As stated in my last letter, we have been trying to locate Guillmero i Marco i Riqueza for questioning about links to a League criminal gang. We have located him, but he has been killed.

Local militia had tracked Guillmero to a lodging house in Bramar. He had taken a room there and, we believe, he was attempting to arrange passage out of the Empire. Militia found Guillmero's recently deceased corpse in the raid.

The owner of the lodgings, Cristo i Verra i Erigo, has been questioned and his statement documented, but was absent at the time of the murder. The key suspects are two other lodgings' guests and two visitors to the lodgings.

With the conjunction with Bramar approaching, I have ordered the suspects detained and Guillmero's room sealed. It is now possible for a team of investigators to examine the room the murder happened in, as well as being able to bring the four suspects to Anvil for further questioning.

Initial divinations indicate that the conjunction should be able to handle a dozen people from Anvil and enough to return with investigators and suspects.

In service to the Empire,

*Fernando i Vassa i Riqueza
Imperial Civil Service, Feroz*
