

To Nicassia Avicia of Phoenix Reach, General of the Citadel Guard

Greetings to you,

I am writing to you as I require your aid in a matter that I believe that you and your fellows may assist me with.

At the last summit I was given a written request by Skywise Gralka, Archmage of Day. In the letter she has requested my aid in helping her and the Imperial Orcs to devise a game for the nation.

Serendipitously, this has been a matter that my fellow Heralds and myself have been considering for a while along with a deeper discussion into Imperial Orc military theory. However due to my duties I am currently unable to lead such a project as a creation of a game. So I am turning to you, as allies of Zakalwe and of myself to aid in this venture.

At 1pm on the Saturday of the Summer Solstice I will be sending a Herald of Zakalwe called Asp, to the Imperial Orc camp and I hope that either yourself or other like minded individuals can aid them and the Imperial Orcs. I have also sent a letter requesting aid to Gabriel Barossa di Tassato Regario as I believe that they may, or their friends and allies may be of aid in the creation of this new game.

I hope that you are well and I trust that you assist me in this matter.

Yours,

Agon, Polomarch of Clarity, Gamesmaster of Zakalwe
