

*Ravenka Ladyovna Gremari
The Family Gremari and Covey of the Indomitable Sun*

I offer greetings to your family and your Covey, my Herald's brought back good reference to your words of last festival. I would like to meet with your covey in person.

I have decided to attend the Empire at midday the Sunday of the Equinox and have granted invitations to several people. Anyone without an Invite from me will need a Child who has not passed their citizenship test to speak to me and convince me why they are worth speaking to. This I hope will mean that anyone who wishes to speak to me, will get the opportunity.

Your Family and Covey may come and speak to me and bring this letter as an invite, and we can discuss how I may best aid you and the Empire so you may be the Cabal that you have the potential to be.

In Friendship

Meraud - The Golden Magician
