

To the Senators for Madruga, Feroz and Kahraman,

That you may be informed of current events, I am writing to notify you of an investigation being undertaken in Bramar.

At the last Summit, the magistrates put a gang of League mountebanks on trial for crimes in League lands. This gang, calling themselves the Prosperous Beggars, revealed they had been hired by a Freeborn, one Guillmero i Marco i Riqueza.

Guillmero's location has been traced to Bramar and we believe we will soon have him detained for questioning.

There is an upcoming conjunction that would enable the Portal to open at Bramar, which would enable Guillmero to be brought to Anvil for questioning. Whilst this investigation is being handled by the magistrates and militia, it does concern a Freeborn citizen, and so it was felt you should be appraised.

We will notify you when Bramar conjunction will be. You may wish to liaise with the magistrates around ensuring the involvement of Freeborn militia at that time.

Details of the raid against the Prosperous Beggars are obtainable from the magistrates, or from the Master of the Mint.

In service to the Empire,

*Fernando i Vassa i Riqueza
