

*Greetings Fellow Citizen*

*We of the Carta di Suyan wish to extend to select individuals an invitation to visit an ancient and storied site of pilgrimage which is once again aiding devout followers of the Way to hone their souls.*

*It is our dear hope that by visiting our as-yet humble amenity you may be convinced of the virtue of encouraging others to attend it from across the Empire. We have found that the caverns beneath the Mellfort ruins can influence visions in such a way to bring healing to the soul, allowing pilgrims to set down that which holds them back from expressing Virtue freely.*

*The Imperial Prognosticators have informed us that a conjunction for ten people will be forming at half past eleven on Saturday morning - we intend to send Patrice van Temsechwar to Anvil earlier that morning to discuss matters further.*

*Yours*

*The Carta di Suyan*
