

9229.1

*Ardeniel of the Woodwych Harts,*

*I am glad that you have been considering my words since we last spoke.*

*I would like to be able to help you with what you seek, with the knowledge and the power, but there are so many different items which have been named black shards in the past it is difficult to keep track.*

*Please do send another letter this summit with some more information on what it is you seek and I will try to find out what I can for you.*

*In loyalty,*

*Eli of the Watchers*
