

Imperial Civil Service Report

Location: ...*Spiral, Urizen*.....

Subject: *Prospecting for Mithril*.....

Report: *We dispatched a small team of prospectors to the specified location, and can confirm the presence of mithril.*

The quantity is insufficient to sustain a long-term mine, such as the Legacy, but there is still sufficient quantity to be viable for Imperial use. We estimate about a wain's worth...

..... Unfortunately, the extraction cannot take place as there is a Druj scout group in the area. We believe they have not yet identified the presence of mithril, and are actually pursuing orichalcum and green iron mines lost when the Empire withdrew from Spiral.

..... If the Druj prospectors are eliminated, the extraction of the mithril can take place and any ores the Druj have stolen could also be seized.
