

*For the attention of Gregor de Rondell, Dawnish Camp, Anvil*

*Gregor*

*I am sure that Lady Heliabel writes much better letters than I do, but she is still furthering her studies with our grandmother.*

*Laurel and I are planning for the Solstice. I will come to meet you as soon as the summit begins. Laurel is investigating rumours that Dire Astacids may have escaped from Krakens' Jaws units in Apulus and made it along the coast into Optarion. She has good contacts in many Spires there so will be able to send me winged messages of any opportune locations. My first task will be to check the Sentinel Gate to see if we have further opportunities for adventure together.*

*I will also bring with me a copy of the Venatores Illustres Oath that I have made myself, so that we can begin to plan your initiation if you are still keen to join us.*

*Adiran of the Venatores Illustre, currently travelling*
