

CURSE

Withering Touch of Frost

Role-playing Effect: Your character is CURSED.

While this curse is in effect, you feel chilly almost all the time, unless you are actively warming yourself at a flame.

Mechanical Effect: In addition, while affected by this CURSE, you lose a quarter of any production that would have been provided by a farm, forest or herb garden resource. The additional production provided by an enchantment such as Rampant Growth or Gathering the Harvest is not affected by this curse. This curse will expire just before Autumn Equinox 2016.
