

Imperial Civil Service Report

Date: ... Summer, 377 YF...

Subject: ..... Senate-approved research into Abraxus .....

Report: ..... At the command of the Senate in Spring 377 YF, and utilising the resources made available, we have been able to obtain documentation from private collections that was spared Nicovar's purge. This consists of: .....

... A) A request for research following a pure hiao vision. The vision was granted to a Dawnish Troubadour who exposed a plot against Empress Varkula and received her portion. ....

... B) Some documentation that claims to outline a process, ostensibly created by Abraxus, that offers protection to visionaries undertaking pure hiao visions. ....

... C) A collection of common stories and legends that have been made a matter of public record. ....

..... Regrettably, no other information was able to be sourced at this time. Abraxian documentation is highly coveted and much was lost....
