

REGARDING INTELLIGENCE ON THE GRENDDEL

The Surveyor's Cartel of the City of Locks offers interested parties the following products:

First, a dossier outlining the general political situation of the Broken Shore at this time, including a broad overview of major factions and alliances. This will cost 60 measures of Tempest Jade (MTJ). Access to further dossiers is conditional on purchase of this dossier.

Second, a choice of up to three dossiers giving more detailed profiles of the Salt Lords, the Sea Lords, and the Wind Lords. The first such dossier shall cost an additional 70 MTJ. The second such dossier shall cost an additional 80 MTJ. The third such dossier shall cost an additional 90 MTJ.

The Conclave may let us know which, if any, of the above products they wish to purchase by use of a Declaration of Concord. They may purchase all of these dossiers with a single Declaration, or may make multiple purchases with multiple Declarations. The Grandmaster/s responsible must have the required amount of Tempest Jade registered as being in their possession by the civil service at the end of the summit. The dossiers will then be compiled and delivered to them at the beginning of the next summit. They will have the option to do with these dossiers as they wish for the duration of this summit. After that, copies will be given to your civil service for wider distribution throughout the Empire. This offer is open for this season only, but may be reopened by plenipotentiary request.

Simple Pricing:

Initial dossier = 60 MTJ

Initial dossier plus one set of profiles = 130 MTJ

Initial dossier plus two etc. = 210 MTJ

The full set = 300 MTJ
