

This report is going out to those characters who Brennan Brokeneath met at the Summer Solstice and discussed the construction of a Realmsroot garden with, just to clarify costs and procedure - apologies for any incorrect information that was given out last time.

Constructing the garden takes 3 wains of weirwood and 3 doses of Realmsroot - and would be done by Senate motion as per normal for commissions. It would have to be built in Miaren, Upwold or Hahnmark. If Brennan Brokeneath is named in the Senate motion as aiding with the construction, there will be no labour cost.

If you have any questions or queries, please ask at God for Chris Allen from Plot.
