

306.1 - Vanhe Korppi

Your messages from the Crow's Keep information network have stopped coming over the last few weeks.

Although communication is being generally delayed by the curse and people from different traditions not speaking to each other

You have checked with sources and there has been no word.

Not that this is unremarkable normally, but the last letter you decoded from them said that they had important information and needed to meet soon.

If there is a conjunction to Crow's Ridge in Skarsind you may be able to investigate.
