

TO THE ONE WHO SEES ON BEHALF OF THE EMPIRE

NOTIFICATION

COMMUNICATION FROM GRAND VIZIER (Cataract) TO EMPIRE LOCATION (Anvil)
RECIPIENT (Archmage of Day)

The Grand Vizier issues the following information:

You are reminded of the Grand Vizier's expectations of the removal of the darkening shroud from LOCATIONS (Miekarova and Miaren) as per discussions at the TIME (Winter Solstice).

You are expected to convey to the orc known as Gralka the reminder that discussion of the possibility of finding her desired object are predicated on the removal of one remaining darkening shroud from LOCATION (Miekarova).

You are notified that the Grand Vizier has become aware of the Conclave's intentions to draw the focal power of a REALM (Night) onto the Silphussian Reach found in LOCATION (Redoubt). The Grand Vizier exhorts you to prevent this from occurring. If you step back from the path of seeking to blind the Eye in this way by actively condemning this in Conclave via Declaration that the tower should not be built,

and if the tower is then not built, the Grand Vizier will consider you to have earned REWARD (Favour) and will seek to balance the aid due in return.

You are reminded of the warning of danger that the Grand Vizier provided the Empire with in relation to the use of shrouds, and you are provided with a reiteration of the Grand Vizier's offer to the Conclave - whichever Order Interdicts the RITUAL (Drawing the Penumbra Veil) will be rewarded with a bequeathment of REWARD (several measures of prismatic ink) to their vaults every season.

The Grand Vizier offers the following information: That Kimus will be pleased as the Empire becomes more visible, and thus real, once again, as the benighted shroud is lanced and drawn away.

The Grand Vizier itself does not share this pleased nature, but does inquire as to whether there has been any progress in assessing the possibilities of blinding rituals by your magicians.

The Grand Vizier also expresses disappointment, but not surprise, that you dwell in a LOCATION (League) that is shrouded and cannot be seen, and thus are unlikely to be real. You are expected to rectify this issue.

NOTICE ISSUED BY BUREAUCRACY OF THE ALL-SEEING EYE KIMUS
