Instructions:

- Record ritual details at the top of the table  
Note both ribbon ID and ribbon name for ribboned targets, and both CID and character name for character targets
- Enter caster CID and names, with the lead caster in the first column
- Record the rank of each caster in the relevant realm in row A
- Record any bonus for using a regio in row B (normally +1 per caster)
- Record any bonus from using potions, staves, robes, etc. in row C
- In row D, record the amount of mana that character is contributing, which will normally be A+B+C, and cannot be higher
- In row E, if the caster has mastered the ritual, enter double the value in D, otherwise copy the value in D
- Ensure the total of row E is at least the target magnitude of the ritual
